

Welcome to the Community Survey for the Town and Village of Tully Joint Comprehensive Plan Update.

Background Information

As stated on the project website (<https://bartonloguidice.mysocialpinpoint.com/tully-joint-comprehensive-plan>):

A comprehensive plan is one of a community's most essential guiding documents. It describes current conditions; defines a vision for the future; establishes a set of goals, objectives, and action items; and identifies the types and locations of desired land uses. The purpose of the comprehensive plan is to demonstrate to both the public and private realm the types of projects, programming, and development that the community desires. In this way, community leaders are better prepared to make budgetary, policy, and regulatory decisions, while residents and developers are familiar with the types of development that would likely be supported by the Town/Village.

This survey is intended to collect preliminary community input on what are perceived to be strengths, concerns, challenges, and opportunities within the Town and Village of Tully. Results from this survey will inform the development of Joint Comprehensive Plan Update by bringing to light topics that may need to be explored in greater detail and identifying potential goals, objectives, and action items for inclusion in the Plan.

Instructions

This survey should take only a few minutes to complete, and is divided into the following sections:

1. Community Atmosphere
2. Community Services
3. Growth & Development
4. Housing
5. Recreation
6. Businesses
7. About You

While we encourage you to answer each question, it is not required that you complete the survey in its entirety. The "About You" questions included at the end of this survey are only for the purpose of understanding if this survey has reached a representative sample of the community.

In addition to the Tully Municipal Building and Tully Free Library, this Community Survey is also available in digital form on the project website: <https://bartonloguidice.mysocialpinpoint.com/tully-joint-comprehensive-plan>

We respectfully ask that only one survey response be submitted per person. **Thank you for your participation and for helping shape the Joint Comprehensive Plan!**

Route 80 Corridor

The Route 80 corridor connects the western and eastern boundaries of the Town, traverses the Village, and connects to Interstate 81 and Route 11. These characteristics result in Route 80 being one of Tully's main thoroughfares and a corridor that could potentially support a mix of land uses when it comes to future development. As such, it is important to understand the community's vision for the future of this corridor, particularly the segments that are more densely developed and/or heavily trafficked, such as from Quailridge Dr to Meeker Hill Rd. For example, is safer pedestrian infrastructure (such as sidewalks and/or crossings) needed, are there certain types of development that you would like to see, etc.?

Please use the space below to describe your vision for the future of the Route 80 corridor, specifically between Quailridge Dr and Meeker Hill Rd.
