No comments this evening. However, Councilor Speziale reported that the plans for the Country Jam in July of 2016 are being scaled down a bit. More information will follow.

**Legal**

Mr. Primo discussed drafting a combined town and village facility use form for the Country Jam when it does take place.

Next legal item, Steve advised that when the board adopted the expedited solar permitting procedure, that was supposed to be Local Law No. 1 of 2015, and a resolution was adopted after that, but it wasn't clear in the minutes. The local law has since been filed, but just to be clear on the record, he asked the board to ratify approval of Local Law No. 1 which would be the expedited solar permitting procedure.

Mr. Primo then spoke about a power purchase agreement as it relates to the solar power facilities for a municipality and/or a community. He discussed at length several programs in several communities including one he called a hybrid which he felt may be something to research and discuss for our community. Lengthy discussion followed with questions and comments by board members.
